the heart

abide in love

1 John 4:16

Through mission work, being led by Love Himself, we've met incredible people in incredibly difficult situations and left inspired and enlightened by them.

By the grace of God and generous donors, Brown Horse Projects has kept the doors to BHP Medical Clinic Haiti open since 2019 treating thousands of people who'd otherwise be without care. As needs grow and costs rise, we invite you to join us in this mission.

Mèsi [thank you] for your support and interest in getting to know our neighbors!

BHP Medical Clinic Haiti is open 5 days per week and treats 2,000 patients each month. It's in a rural village 3 miles west of Cap-Haïtien, Haiti's second largest city. Your support goes directly to help this village and surrounding neighbors.

\$5 tests 38 patients for bladder infections

\$10 tests 16 patients for typhoid

\$25 gifts a patient a Bible

\$50 provides 65 women with pregnancy tests

\$75 tests 82 people for diabetes

\$100 feeds 10 families

\$250 treats 20 patients

\$1,000 provides medication for 243 patients

\$11,000 complete operation of the clinic for a month

evangelism

hope despite circumstances

BHP Medical Clinic Haiti employs two pastors who share the hope for true health and wholeness found in a relationship with Jesus Christ.

staff bible study is held daily before clinic opens

a morning message of scripture, hope, and truth is shared with patients waiting to be seen

community bible study is held monthly, with an average of 75 regular participants

street ministry is done by pastors in order to meet and pray with neighbors in nearby villages

mission teams talk with patients outside mobile medical clinics, share daily devotional time with one another and partnering local staff

PROJECTS

art

changes a crisis mindset

As the medical professionals who join us on short-term mission trips heal patients' physical bodies, artists, musicians, and evangelists spend time outside the clinic in the streets healing the mind and soul.

Implementing a year-round arts program like this, led by local artists at our permanent BHP Medical Clinic Haiti, is part of our long-term vision.

The arts have been proven to be one of the greatest antidotes to the negative effects of trauma on the brain, body, and spirit. If you would like to be part of the launch of an arts program in Haiti, please contact us. To support this special project, please put 'art launch' in the notes with your donation.

trips

join us on an upcoming trip

Brown Horse missions serve the Dominican people and small communities of Haitian immigrants living in and around Barahona, Dominican Republic.

We'd love to have you with us on a mission trip. Applications are available at brownhorseprojects.org.

Teams focus on sharing God's love and promoting whole health in the communities we visit year after year.

Trips require a team with various skills. We encourage friends from all fields, backgrounds, and ages to apply if they feel called to join us.

my neighbor

who is my neighbor?

Luke 10:29

Our Haitian neighbors inspire us by their joy and faith despite desperate circumstances!

Haiti is the **poorest nation** in the western hemisphere. Average annual income is **\$518** (\$55,000 in the US).

Only **50%** of the population has access to safe water. And only **25%** of the population has access to adequate sanitation.

Life expectancy in Haiti is 14 years less than the US.

50% of children do not attend school.

1/2 of the population is food insecure.

Haiti has **no elected leaders** and has been without a president since Moïse's assassination in 2021.

Haitians living in the Dominican Republic also experience **poverty** and often **persecution**.
